Before celluloid : The stroboscopic animation principle was introduced in 1833 with the phénakistiscope and also applied in the zoetrope since 1866, the flip book since 1868, and the praxinoscope since 1877, before it became the basic principle for cinematography. Experiments with early phenakistiscope-based animation projectors were made at least as early as 1843. Jules Duboscq marketed phénakistiscope projection systems in France between 1853 and the 1890s.

Color : Another major technological development was the introduction of natural color, which meant color that was photographically recorded from nature rather than added to black-and-white prints by hand-coloring, stencil-coloring or other arbitrary procedures, although the earliest processes typically yielded colors which were far from natural in appearance.citation needed While the advent of sound films quickly made silent films and theater musicians obsolete, color replaced black-and-white much more gradually.citation needed The pivotal innovation was the introduction of the three-strip version of the Technicolor process, first used for animated cartoons in 1932, then also for live-action short films and isolated sequences in a few feature films, then for an entire feature film, *Becky Sharp*, in 1935. The expense of the process was daunting, but favorable public response in the form of increased box office receipts usually justified the added cost. The number of films made in color slowly increased year after year.

Peter Rabbit 2: The Runaway was initially scheduled to be released in the UK and the US in late March and early April respectively, but due to uncertainty over the outbreak, the film was postponed to early August before being postponed once again to December 11, 2020, and January 15, 2021, respectively.⁸⁷ Sony Pictures, the films production company, said that the changes internationally were because of coronavirus fears, with the US release moved in sync over worries of pirate copies and because the rival childrens film *DreamWorksUniversals Trolls World Tour* had moved its release date earlier, to the same weekend on which *Peter Rabbit 2: The Runaway* was initially planned to be released.⁸⁸ *Trolls World Tours* forward rescheduling takes it to what would have been *No Time to Dies*

weekend both are distributed by Universal, and leaves it as the biggest film in April.89
